PROFILE

I am a 5th-semester Computer Science student at Bina Nusantara University with a GPA of 3.63. Have a strong interest in Front-end Development, UI/UX Design, and Android Development, and my track record in projects and communications ensures my contribution to future success.

EDUCATION

SMAN 1 Kebomas , Gresik
July 2018 — May 2021

Mathematics and Natural Science

Bachelor of Computer Science, Binus University, Jakarta
September 2021 — Present

- I learned programming languages such as Java, JavaScript, C, and HTML/CSS. Additionally, I've gained expertise in designing and developing applications, as well as creating databases with a focus on proper implementation and structure.

- I gained knowledge in leadership and teamwork within a project setting.
This encompassed aspects such as time management, planning project work, troubleshooting progress, and deploying applications.

ORGANIZATION & VOLUNTEER EXPERIENCE

Member and Volunteer at Bina Nusantara Computer Club, Malang
October 2021 — September 2022

- As a member of BNCC, I learned a multitude of skills such as time management, project management, and teamwork.

- I also contributed to volunteer activities by assisting Micro, Small, and Medium Enterprises in developing their products, such as creating video advertisements and product catalogs.

- Additionally, I participated in UI/UX learning and training sessions throughout my membership in BNCC.

Member at Binusian Gaming
September 2022 — February 2023

PROJECT HISTORY

NUTR. (UI/UX), Jakarta
May 2023 — June 2023

- I assumed full responsibility for NUTR, encompassing project scheduling, task allocation based on job descriptions for the NUTR project team, and delivering presentations.

- I had the responsibility of crafting both the Application's UI/UX and application workflow.

ADX Tire Website, Jakarta

September 2023 — Present

I had the responsibility of working on a freelance project as a UI/UX designer for an ADX website, collaborating with a front-end developer in the process of creating an appealing and user-friendly interface to enhance the overall user experience.

LRNT. (Android App), Jakarta

October 2023 — Present

- I assumed full responsibility for LRNT, overseeing project scheduling, task allocation, and delivering presentations for the LRNT project team.

- Additionally, I was responsible for both developing the user interface and handling the back-end of the Android app.
